FSEIS -Draft Response to Comments EPA review 9-19-16.xlsx

Hi Bernward,

I wish I had sent you these responses earlier. Instead, I was organizing the RTC to include these comments and because many of them are just referring to the document, I had to add content. So, I am hoping to have that up for review tonight. Unfortunately, there are still some areas that we will need to provide actual data and I will need that information by tomorrow. Looks like you and I will be working 24/7 for the next few weeks....

So, for the RTC (please note they have been renumbered) please provide me with actual details not a reference back to the document. When we discussed these comments and responses, I said refer them back to the document but I must be able to provide a response with data.

So, for the responses in RED, please provide actual data or information non summary version from the document or the literature you reference. For example, some comments state that "literature suggests" .. please put the details in the response.

Ex. 5 - Deliberative Process

When you reply, please call the document the LBG additional information to RTC 9-19-16

Thanks jeannie

Subject:

Will look at RTC edits shortly.

Also, for the Chapter 7 update: What was the official end date on the Comment period (May 27 to ____); not sure how the extension factors in.

Thanks,

Bernward
